

THE WEST HARTFORD ART LEAGUE

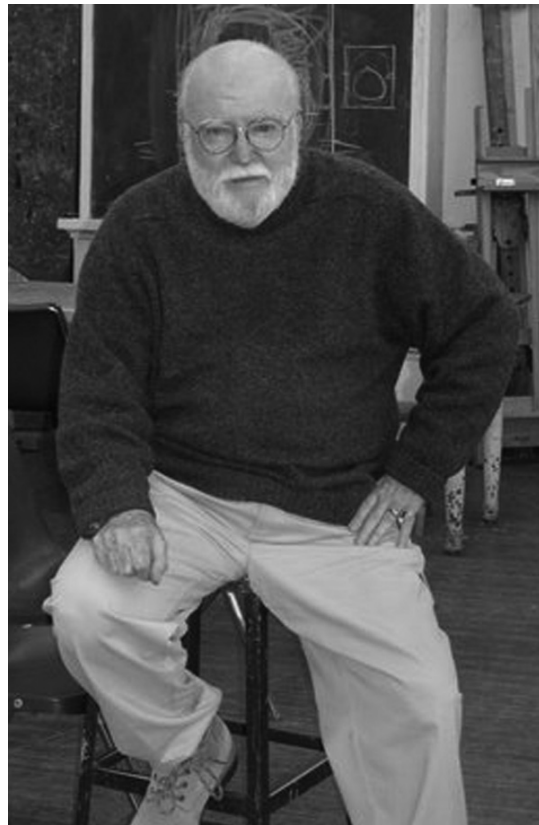

# A Tribute to Paul Zimmerman

May 25 - June 15, 2008

*Opening reception: Sunday May 25th, 1-4 p.m.*

**I**t was a joy for many students to experience Paul Zimmerman's critique classes. His art instincts were universally respected and always proven true with the test of time.

And the uncanny speed and certainty with which he saw art was a rare innate gift, an ability that was truthfully expressed and generously shared. We will forever be indebted to Paul Zimmerman for helping us to "see" art and find our own way. We now continue to paint, still hearing his voice, now guessing his reaction to our

work, and sharing among us a special language of the art process. We join together in expressing enormous gratitude and appreciation of the unforgettable art mentor.

We will miss him and he will always be a part of our work and our lives.

*Students and friends of Paul Zimmerman*
